**ZONING COMMISSION ORDER NO. 909-A**  
**Case No. 96-12Z**  
**(Miscellaneous Citywide Map Amendments)**  
**September 30, 1999**

**CORRECTION ORDER**

(This Order corrects map amendments affecting Area 5 on page 3, as denoted in **bold** print)

The Zoning Commission for the District of Columbia initiated this case in response to a petition from the Office of Planning (OP) requesting the Commission to amend the Zoning Map of the District of Columbia. Amendments to the Zoning Map are authorized, pursuant to the Zoning Act [Act of June 20, 1938, 52 Stat. 797, as amended, D.C. Code Ann. Section 5-413 (1981)].

The OP petition, filed on October 9, 1996, requested the Zoning Commission to schedule a public hearing to consider map amendments for eleven (11) areas within the District of Columbia. This request comprised the second phase of the land use category of the Zoning Consistency Project work program relative to the Comprehensive Plan Amendments Act of 1994. The overall purpose of this rezoning initiative is to implement provisions of the Comprehensive Plan for the National Capital that require that zoning not be inconsistent with the Plan.

At a regular meeting on October 21, 1996, the Zoning Commission authorized a public hearing on the OP petition. Accordingly, the public hearings were properly noticed for February 24 and April 17, 1997. The hearings were conducted in accordance with the provisions of 11 DCMR 3021.

At the February 24 and April 17, 1997 public hearings, the Commission heard the presentations of the Office of Planning and a number of persons in support of and in opposition to specific proposed map amendments. The hearing on April 17, 1997 was officially noticed and conducted to address supplemental rezonings proposed by OP, to further refine the proposed rezonings in this case overall, and to officially advertise any omissions in the hearing notice for the February 24, 1997 hearing session. The April 17, 1997 hearing session was also a continuation of the February 24, 1997 hearing session.

By reports dated October 9 and December 17, 1996 and February 14 and June 2, 1997, and by testimony at the two public hearing sessions, OP recommended approval of the proposed map amendments as refined and finalized.

Advisory Neighborhood Commission (ANC) 6B (Mr. Gottlieb Simon, Executive Director testified in support of the proposed rezoning for Eighth Street, S.E.

Testimony in opposition to the specific rezoning proposal involving Eighth Street, S.E. was given by Mr. William Frank Reed of the Capital Hill Association of Merchants and Professionals, Ms. Margot Kelly of the Baxlo Business Alliance, and Mr. Yves Fedrigault.

At the close of the second hearing session on April 17, 1997, the Zoning Commission left the record open until May 26, 1997 for the submission of additional information specifically requested.

The Zoning Commission took proposed action to approve a number of the proposed map amendments on June 9, 1997.

The Zoning Commission believes that the concerns and views expressed during the public hearing proceedings have been thoroughly discussed and considered. The Commission further believes that it has accorded all concerned ANCs the "great weight" to which they are entitled.

A Notice of Proposed Rulemaking was published in the D.C. register on August 6, 1999 (46 DCR 6465) and was referred to the Office of the Corporation Counsel (OCC), the Zoning Administrator (ZA), the Office of Planning (OP), the National Capital Planning Commission (NCPC) for review and comment. As a result, a number of refinements were made relative to the original proposed rezonings. All such refinements are reflected in this order as well as in the Notice of Final Rulemaking for this case published separately.

The proposed decision to approve these map amendments was referred to NCPC under the terms of the District of Columbia Self-Government and Governmental Reorganizations Act. In a letter, dated September 10, 1999, NCPC indicated that the proposed map amendments in this case would not adversely affect the federal establishment or other federal interests in the National Capital and would not be inconsistent with the Comprehensive Plan for the National Capital.

The Zoning Commission believes that the map amendments included herein will provide a workable mechanism to effectuate the Comprehensive Plan Amendments Act of 1994 as part of the ongoing Zoning Consistency Project. Furthermore, the Commission believes that its decision to approve the map amendments set forth in this order is in the best interests of the District of Columbia, is consistent with the intent and purpose of the Zoning Regulations, Zoning Map, and Zoning Act, and is not inconsistent with the Comprehensive Plan for the National Capital.

In consideration of the reasons set forth on this order, the Zoning Commission of the District of Columbia **ORDERS APPROVAL** of the following amendments to the Zoning Map of the District of Columbia.
